THE AMERICAN ORNITHOLOGISTS' UNION

CHECK-LIST OF NORTH AMERICAN BIRDS,

SECOND EDITION, THOROUGHLY REVISED.

The preface to this work defines its scope and object and includes selections from the A. O. U. Code of Nomenclature, of special importance in the present connection. The table of contents consists of a systematic list of the orders, sub-orders and families of North American birds. The Check-List proper gives the scientific and common name, number in previous list, and geographical distribution of the 1,068 species and sub-species, constituting the North American Avifauna. This is followed by a list of birds of doubtful status, and a list of the fossil birds of North America.

This new edition has been carefully revised; the recent changes in nomenclature, and species and sub-species described since the publication of the first edition in 1886, are included, while the portion relating to geographical distribution has been much amplified.

CLOTH, 8vo, 372 Pages, Price, $2.00.

A NEW BIRD JOURNAL.

In response to a widespread demand from those who study "birds through an opera glass," and from workers for the Audubon Societies, The Macmillan Company takes pleasure in announcing the publication on February 1, 1899, under the editorship of Mr. Frank M. Chapman, of the first number of an illustrated bi-monthly magazine to be known as

BIRD-LORE.

Bird=Lore **Will be to popular Ornithology what The Auk is to Scientific Ornithology.**

Nearly every prominent American writer on birds in nature will contribute to the first volume. The list includes John Burroughs, Dr. Henry van Dyke, Bradford Torrey, Olive Thorne Miller, Mabel Osgood Wright, Florence A. Merriam, Annie Trumbull Slosson, J. A. Allen, William Brewster, F. A. Lucas, Henry Nehrling, E. W. Nelson, Ernest Seton Thompson, Otto Widmann, and numerous other writers known for their powers of observation and description.

BIRD-LORE **Will be the Official Organ of the Audubon Societies.**

The Audubon Societies, with a membership of over 16,000 have felt a rapidly growing need for an official organ, which **Bird=Lore** will become. A special department, under the charge of Mrs. MABEL OSGOOD WRIGHT, will be devoted to Audubon work.

BIRD-LORE **Will be fully illustrated.**

An especial feature of **Bird-Lore** will be the publication of photographs of birds, their nests, eggs, and young, from nature. Material already in hand warrants the statement that **Bird-Lore** will contain the best illustrations of this kind which have as yet appeared in this country.

Terms: $1.00 a year; 20 cents a number. Subscriptions may be sent to the Macmillan Company, 66 Fifth Avenue, New York City; or to the Editor, at Englewood, New Jersey.
